Welcome to Mountain View Oral Surgery! We know surgery can be an apprehensive experience. You have many options, and deserve the best care possible.

We understand that what may be "routine surgeries" for our surgeons may be stressful inconveniences for our patients. At Mountain View Oral Surgery, our goal is to provide the best surgical experience possible! This starts with the first phone call. Our front desk will work closely with you to coordinate visits that work well with your schedule. We are in network with many insurance plans! Once you are here, our friendly staff will greet you, and collect required information from you. We know your time is valuable, and we aim to reduce any unnecessary waiting time in the reception area!

Our surgeons will coordinate care with your dentist, and discuss the best plan of care along with alternatives. We will individualize your care to you. Both of our surgeons are extensively trained. They are Board Certified, and come with many years of experience. We have a state of the art facility with all of the latest imaging and instrumentation to facilitate your case! Once a treatment plan has been determined, our financial coordinator will work with you or your insurance company to determine your benefits.

With many different anesthesia options at our disposal, our surgeons will make the experience as pleasant as can be for you! Our service doesn't stop there! If any post operative care is needed, you can count on us to be there for you! At the end of the day, nothing is more important to us than your health! If during the process, we can do anything to better assist you, please let your staff know. We thank you for choosing Mountain View Oral Surgery!
